

RESEARCH PARTICIPANTS NEEDED

THE DISCLOSURE TO AND INTERACTION WITH SCHOOL PERSONNEL AMONG PARENTS OF GIRLS WITH EATING DISORDERS

QUALIFICATIONS FOR PARTICIPATION IN THE STUDY

- English speaking primary caregiver(s) of girls
- Daughter diagnosed with eating disorder between the ages of 12 and 16
- Received diagnosed within the last 5 years
- Chose to share daughter's eating disorder diagnosis to school personnel

The purpose of the study is to explore parents' experiences sharing their daughter's eating disorder diagnosis with school personnel. The information gathered will help school based clinicians address the unique needs of families of girls living with an eating disorder. Additionally, having a space to share their experiences will empower individuals who have similar struggles while decreasing their sense of isolation.

Participants' identities and interviews will remain confidential. Interviews will be conducted online through Zoom for 60 minutes.

If you are interested in participating, please contact Jordyn Abrahams at jabrahams2@fordham.edu

PARTICIPANTS WILL EACH RECEIVE A \$35 AMAZON GIFT CARD
